TROPHON2 UNIT - IMAGING DEPARTMENT

High-level disinfection system

Used for ultrasound probes, this automated system is fast, safe, and more convenient for staff. The system is designed to protect patients and staff using environmentally-friendly chemicals. It is harmless for staff to operate and reduces the risk of cross-contamination.

PATIENT MONITOR - INFUSION CLINIC

Exceptional Care - Smart Cuff Technology

A patient monitor to fully equip our Infusion Clinic. This monitor will be a great addition as we finish up our pharmacy remodel and reopen the oncology section of the HDH Infusion Clinic.

INFANT WARMER PLATFORM - OB NURSING

Warming Hearts, Comforting Minds

HDH Nursing aims to update and streamline the care that little hearts receive. This new warmer would better support our patient-centered development and bring more stability to patient care.

Please mail ballots to P.O. Box 1025, Burns, OR 97720 or visit us at harneyhospitalfoundation.org. Thank you again for your gift and your time.
